

STAY SAFE – OH&S Workshops

Learning Objectives

Develop an understanding and awareness of Occupational Health and Safety to be safe in the workplace.

Overview

The Stay Safe OH&S Workshops explore the elements that make up ensuring a workplace is safe through a range of videos, discussion, and activities. Videos and a OH&S Booklet have been developed by BGKLEN for students to gain further insight into the processes involved in OH&S, as well as, activities to apply their understanding of OH&S to real work environments.

Workshop 1 develops students' understanding of:

- Duty of Care and the role and responsibility of HSR's
- The OH&S Acts, Regulations and Safety Regulators
- Hazards and risk management

Consultations and notifiable incidents

Workshop 2 builds on workshop 1 and guides students to carry out their own risk assessments.

Program Level	Duration	Learning Areas	
Years 10-12	2 workshops	Problem Solving & Creativity	Communication
	45 minutes per workshop	Critical Thinking	Initiative

Pre-Program Tasks (optional)

Required Resources

- Facilitate a class discussion: Think about times when you were out visiting a shop, café, music performance or event. Have you ever felt unsafe and thought that people in charge could have done something to prevent it, then you have already started to think about OH&S.
- Explore with students the OH&S signs and symbols they may have seen in workplaces throughout their neighbourhood.

- Computer and Internet access
- Interactive Whiteboard to play videos
- OH&S Booklet
- Risk Assessment Charts

VCAL Learning Areas

Work Related Skills Foundation Unit 1 Learning Outcome 1

- Identify OHS roles and responsibilities of the relevant personnel in a selected work environment.

Work Related Skills Foundation Unit 1 Learning Outcome 2

- Identify and apply basic OHS procedures in a selected workplace.

Work Related Skills Intermediate Unit 1 Learning Outcome 1

- Research and describe OHS roles and responsibilities of the relevant personnel in a selected work environment.

Work Related Skills Intermediate Unit 1 Learning Outcome 2

- Identify and apply complex OHS procedures in a selected workplace.

Workshop Access

Follow these steps to access the workshop:

- Email Carolyn.coyle@bgkllen.org.au to receive your personal access to the workshop
- You can also find this workshop along with other LLEN workshops and events in the SWL Portal
