

GET IT – Skills & Mindsets Workshops

Learning Objectives

Develop insight into the future world of work including the skills needed in preparation for entering employment in a range of industries.

Overview

Get It follows the stories of six people who transitioned from school to work in diverse industries. These stories explore how enterprise skills have contributed to success in the workplace.

Program Level	Duration	Learning Areas	
Years 10-12	6 sessions	Problem Solving & Creativity	Communication
		Interpersonal Skills	Enthusiasm for ongoing learning
	45 minutes per session	Critical Thinking	Initiative

Pre-Program Tasks

- Brainstorm the type of skills employers may be wanting and needing in their staff
- Define Enterprise and Technical Skills

Required Resources

- GET IT lesson plans
- Computer and Internet access
- Interactive Whiteboard to play videos

VCAL Learning Areas

Work Related Skills Foundation Unit 2 Learning Outcome 2

- Identify and demonstrate employability skills required for a simple work-related activity.

Work Related Skills Intermediate Unit 2 Learning Outcome 2

- Describe, analyse and demonstrate employability skills valued in a complex work-related activity or project.
- GET IT Lessons are also aligned to VCAL PSD (see lesson overviews)
